# 1. SysInfotools Removable Media Data Recovery

## SysInfoTools Removable Media Data Recovery

## 2. Overview

**Removable Media Data Recovery** software supports recovery from corrupt/damaged all popular removable medias, such as: *Compact Disc (CDs)*, *Digital Versatile Disc (DVDs)*, *Blue Ray Disc*, *External Hard Drives*, *USB Pen Drives*, *USB Flash Drives*, *SD Cards*, *SD Memory Cards*, *Memory Sticks*, *Solid State Drives (SSDs)*, etc. Also, it performs recovery from accidentally formatted drives containing both **FAT** (file allocation table) and **NTFS** (new technology file system) file systems. It supports both partition tables, i.e. **GPT** (GUID partition table) aka **MBR** aka master boot record, which are commonly used to store data. The software doesn't require any prior technical expertise, so that any technical or non-technical user can use it with ease .

There are three recovery modes for handling different level of corruption in removable media: **Standard**, **Advanced** and **Deep** . It provides a tree-structure preview of recovered data while keeping the original hierarchy well-maintained. Also, it allows users to check the file properties before saving them. Users can either save the entire recovered data or they can select the specific files and folders in the tree-structure.

### Check out the most prominent features of SysInfoTools Removable Media Data Recovery:

- Support **removable media data recovery** from all popular removable media devices;
- Support data recovery from corrupt/damaged **external HDD** (hard disk drives);

- Recovery from **formatted drives** can also be done via this software;
- Both popular Windows files systems, i.e. **FAT & NTFS** are supported;
- Support data recovery from both partition tables, **MBR (master boot record)** and **GPT (GUID partition table)** ;
- **Multiple recovery modes** for handling different level of corruption and recovering more data;
- **Tree-structure preview** for all the recovered files and folders before saving them;
- **Auto-search feature** for searching the files in the tree-structure;
- **Interactive** and **easy-to-use** application that requires no technical knowledge;
- Compatible with all major Windows operating systems including **Windows 10 (32 & 64-bits)** ;
- Available with **free demo version** for prior evaluation with preview feature

## 3. Getting Started

- [Installation Procedure](#)
- [Order And Activation](#)

### 3.1 Installation procedure

To install **SysInfoTools Removable Media Data Recovery Recovery** tool, follow the steps given below:

1. Download demo version of the software setup (executable file or .exe) from the page linked below:

[www.sysinfotools.com/recovery/removable-media-data-recovery.php](http://www.sysinfotools.com/recovery/removable-media-data-recovery.php)

2. Double-click the setup to install the software on your system.
3. Follow the steps on the setup wizard to install the software.
4. After completion, the setup wizard will popup the message of setup completion on your computer screen.
5. Click **Finish** to launch the software on your system.

## 4. Order and Activation

- [How to Order](#)
- [How to Activate](#)

## 4.1 How to Order

The software can be purchased by making online payments. Click on the link shown below to have a look at the pricing details and to place an order.

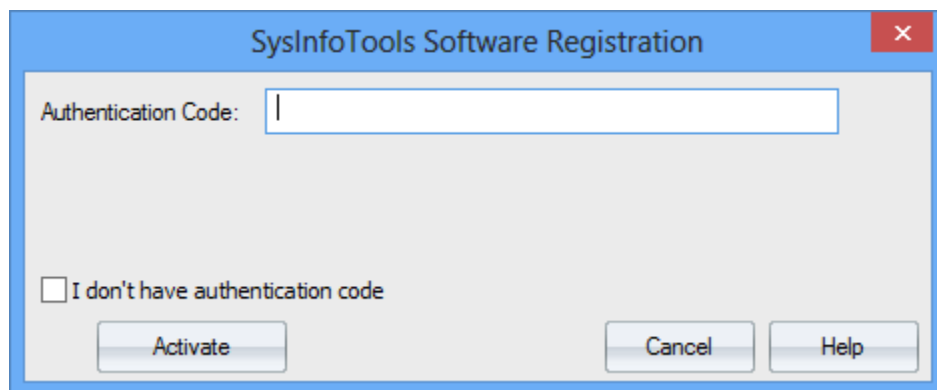

[www.sysinfotools.com/buynow/removable-media-data-recovery.php](http://www.sysinfotools.com/buynow/removable-media-data-recovery.php)

Once the payment is received, an order number is sent to you via e-mail.

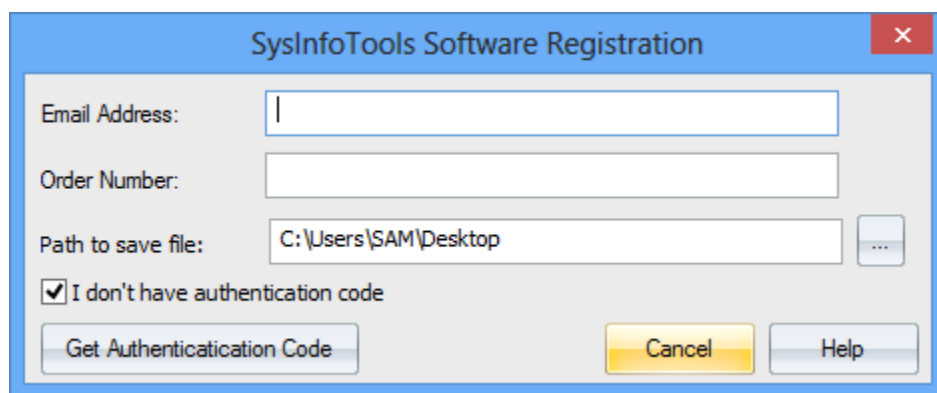

## 5. How to Activate

As you purchase the software, an Order Number is generated and provided to you. This order number has to be entered in the Registration window of the full version of **SysInfoTools Removable Media Data Recovery** tool.

- Open **SysInfoTools Removable Media Data Recovery** software in your system, software registration dialog will pop-up on your screen to enter software authentication key.

- Click the "**I don't have Authentication Code**" check box, following fields will be displayed in the registration dialog:

**Email Address:** In this field, you need to enter your email address, which you have used to register **SysInfoTools Removable Media Data Recovery** software.

**Order Number:** In this field, you need to enter the Order Number which has been provided to you at the time of purchasing the software.

**Path to save the file:** Select the path where you want to save the .info file which is generated after clicking on "Get Authentication Code", by default .info file will be saved on desktop of your system.

Send this **.info file** generated by the software at [sales@sysinfotools.com](mailto:sales@sysinfotools.com), after getting .info file sales department will send you software activation key within a couple of minutes.

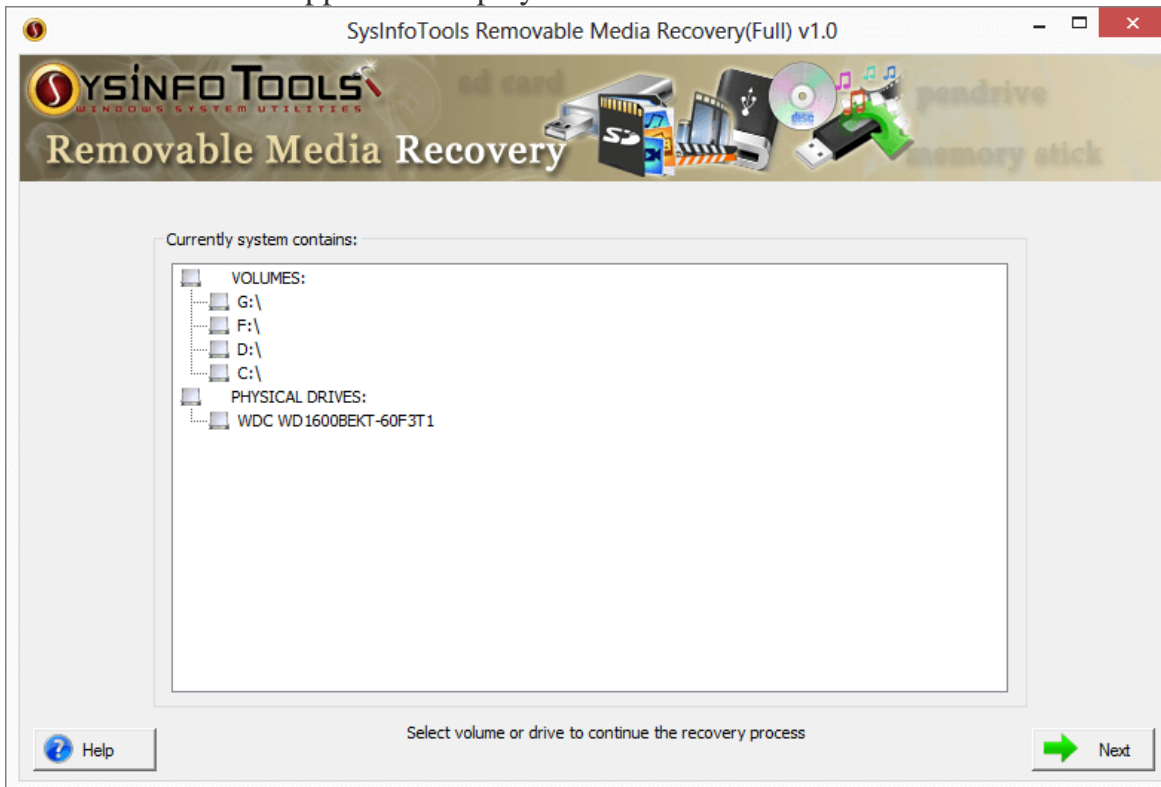

For any software related queries email at: [support@sysinfotools.com](mailto:support@sysinfotools.com)

## 6. Using SysInfotools Removable Media Data Recovery

- [Understanding the User Interface](#)
- [Button Used](#)
- [How to Use Removable Media Data Recovery software?](#)

This disclaimer of warranty constitutes an essential part of this License.

In addition, in no event does SysInfoTools authorize you or anyone else to use SysInfoTools Removable Media Data Recovery in applications or systems where SysInfoTools Removable Media Data Recovery failure to perform can reasonably be expected to result in a significant physical injury, or in loss of life. Any such use is entirely at your own risk, and you agree to hold SysInfoTools harmless from all claims or losses relating to such unauthorized use. You agree to hold SysInfoTools Data Recovery harmless from any and all claims or losses relating to such unauthorized use.

## 9. Technical Support

We provide 24/7 online support to solve customer's queries. We have highly skilled and expert support team, who makes use of modernized communication devices, thereby achieving maximum efficiency and an exceptional response time.

If you do not have any answer of your problems then contact our support team at: [support@sysinfotools.com](mailto:support@sysinfotools.com)

## 10. About SysInfoTools

Since several years, SysInfoTools has evolved as one of the trusted names in the field of Data Recovery of the different types of files. The main aim of our organization is to provide the best possible solution to our customers so that our customers can recover their data and relief them from the frustration of data loss. We aim at providing values to our customers and try to satisfy them in every possible way. Customer satisfaction is prime reward for our organization.

SysInfoTools provides a wide range of software for different types of corrupt files recovery and repair for corrupt zip files, MS BKF files, Open Office files (Base files, Impress files, Draw files, Calc files, Math files and Writer files), MS Office 2007 files (MS Word files, MS PowerPoint files and MS Excel files). SysInfoTools also provides software for corrupt PST files of MS Outlook and DBX files of Outlook Express. In addition, we have more recovery software which are available for crashed hard disk recovery and repair like software for FAT recovery and NTFS recovery. In future, we are going to expand our operations to offer more software for different types of corrupt files, Database, Email migration, Desktop utilities, Network management and many more which will help our customers to recover their valuable data.

The hard drives data recovery software provided by our organization ensures safe and accurate data recovery from the hard drive. It does not modify the existing content of the hard drive and make the fresh copy of the recovered data. Hard drives data recovery software are useful in situation when there is an accidental deletion of files, which are deleted due to virus attacks, disk formatting and software malfunctioning.

You can buy our products directly from SysInfoTools website. We provide software both by online mode and via shipment. The shipment is made within the committed time frame and at reasonable rates. We provide 24x7 customer support, our dedicated support team assists our customer by providing them information before and after the purchase of our product. We also provide the live working videos and free demo of our products at our SysInfoTools site so that the customer can see and analyze the software before purchasing it.
