## 1. SysInfotools Add Outlook PST

## 2. Overview

Add your PST files to your Outlook profile using advanced **Add Outlook PST** tool of SysInfoTools Software. This tool helps you add multiple PST files to your MS Outlook profile in just a single shot. You can also search your PST files on your system using its advanced search feature. This tool only supports normal PST files, and make sure the read-only attribute of selected PST file(s) is not enabled before adding the files to Outlook.

Some key features of SysInfoTools Add Outlook PST tool are:

- Performs quick and a very safe addition of selected PST files to Outlook
- Supports multiple PST files at a time to save users' valuable time
- Provides advanced search feature to search the PST files in the system
- Works in a safe manner due to its non-destructiveness feature
- Highly interactive and user-friendly interface, i.e. no technical knowledge is required

- Supports all major versions of Microsoft Outlook and Windows operating systems
- Available with demo version for free evaluation purpose

**Important note:** Make sure the PST files are not corrupted, and the read-only attribute of selected PST files is not enabled.

### 3. Getting Started

- [Installation Procedure](#)(See 3.1)
- [Order And Activation](#)(See 4.)

#### 3.1 Installation procedure

1. Download demo version of the software setup (executable file or .exe) from the page linked below:

[www.sysinfotools.com/recovery/add-outlook-pst.html](http://www.sysinfotools.com/recovery/add-outlook-pst.html)

2. Double click the setup to install the software on your system.
3. Follow the steps on the setup wizard to install software.
4. After completion, setup wizard will popup the message of setup completion on your screen.
5. Click **Finish** to launch the software on your system.

**Note:** Microsoft Outlook must be installed on your system in order to use **SysInfoTools Add Outlook PST** tool.

### 4. Order and Activation

- [How to Order](#)(See 4.1)
- [How to Activate](#)(See 4.2)

#### 4.1 How to Order

The software can be purchased by making online payments. Click on the link shown below to have a look at the pricing details and to place an order.

[www.sysinfotools.com/buynow/add-outlook-pst.html](http://www.sysinfotools.com/buynow/add-outlook-pst.html)

You agree to hold SysInfoTools Data Recovery harmless from any and all claims or losses relating to such unauthorized use.

## 8. Technical Support

We provide 24/7 online support to solve customer's queries. We have highly skilled and expert support team, who makes use of modernized communication devices, thereby achieving maximum efficiency and an exceptional response time.

## 9. About SysInfoTools

Since several years, SysInfoTools has evolved as one of the trusted names in the field of Data Recovery of the different types of files. The main aim of our organization is to provide the best possible solution to our customers so that our customers can recover their data and relief them from the frustration of data loss. We aim at providing values to our customers and try to satisfy them in every possible way. Customer satisfaction is prime reward for our organization.

SysInfoTools provides a wide range of software for different types of corrupt files recovery and repair for corrupt zip files, MS BKF files, Open Office files (Base files, Impress files, Draw files, Calc files, Math files and Writer files), MS Office 2007 files (MS Word files, MS PowerPoint files and MS Excel files). SysInfoTools also provides software for corrupt PST files of MS Outlook and DBX files of Outlook Express. In addition, we have more recovery software which are available for crashed hard disk recovery and repair like software for FAT recovery and NTFS recovery. In future, we are going to expand our operations to offer more software for different types of corrupt files, Database, Email migration, Desktop utilities, Network management and many more which will help our customers to recover their valuable data.

The hard drives data recovery software provided by our organization ensures safe and accurate data recovery from the hard drive. It does not modify the existing content of the hard drive and make the fresh copy of the recovered data. Hard drives data recovery software are useful in situation when there is an accidental deletion of files, which are deleted due to virus attacks, disk formatting and software malfunctioning.

You can buy our products directly from SysInfoTools website. We provide software both by online mode and via shipment. The shipment is made within the committed time frame and at reasonable rates. We provide 24x7 customer support, our dedicated support team assists our customer by providing them information before and after the purchase of our product. We also provide the live working videos and free demo of our products at our SysInfoTools site so that the customer can see and analyze the software before purchasing it.
