## 1. SysInfotools NSF Merge

## 2. Overview

The advanced **NSF Merge** tool of SysInfoTools Software can merge/combine your multiple NSF database files into a single file. It performs a very safe merging action of selected NSF database files without causing any changes or damage to the original files. It has an advanced search feature that helps you search the NSF files from your system in an automation mode. It provides multiple options for merging selected NSF files, such as: *Join NSF*, *Merge NSF* and *Merge Contact*. It allows users to remove duplicates from the selected NSF database files, exclude *All Documents* folder and exclude trash folder. Using this tool, users can save new output NSF database file with a new name at user-defined location. Any technical and non-technical user can use this tool with ease as it has an interactive GUI.

### Key features of SysInfoTools NSF Merge tool are:

- Performs safe merging action of selected NSF files without causing any changes or damage;
- Combines multiple NSF files into a single file at a time, i.e. no maximum limit for files selection;
- Provides multiple options for merging process:
  1. **Join NSF** option to join NSF files by creating new folder for each selected NSF files;

2. **Merge NSF** option to merge all folders of selected NSF files into new NSF file;
  3. **Merge Contact** option to merge only contacts of selected NSF files into a new NSF file.
- Allows users to remove the duplicate items with *filter with created* data feature;
  - Provides options for excluding **All Documents** folder as well as **Trash** folder (optional);
  - Allows users to save output at user-defined location with a new name;
  - Highly interactive and user-friendly interface, i.e. no technical knowledge is required;
  - Supports all major versions of IBM Lotus Notes and Windows operating systems;
  - Available with demo version for free evaluation purpose.

### 3. Getting Started

[Installation Procedure](#) (See 3.1)

- [Order And Activation](#) (See 4.)

#### 3.1 Installation procedure

To install **SysInfoTools NSF Merge** tool, follow the steps given below:

1. Download demo version of the software setup (executable file or .exe) from the page linked below:  
  
[www.sysinfotools.com/recovery/merge-nsf-files.html](http://www.sysinfotools.com/recovery/merge-nsf-files.html)
2. Double-click the setup to install the software on your system.
3. Follow the steps on the setup wizard to install the software on your system.
4. After a successful completion, the setup wizard will pop-up the message of setup completion on your monitor screen.
5. Now click **Finish** to launch the software on your system.

**Note:** IBM Lotus Notes must be installed on your system in order to

use **SysInfoTools NSF Merge** tool.

## 4. Order and Activation

[How to Order?](#) (See 4.1)

- [How to Activate?](#) (See 4.2)

### 4.1 How to Order

The software can be purchased by making online payments. Click on the link shown below to have a look at the pricing details and to place an order.

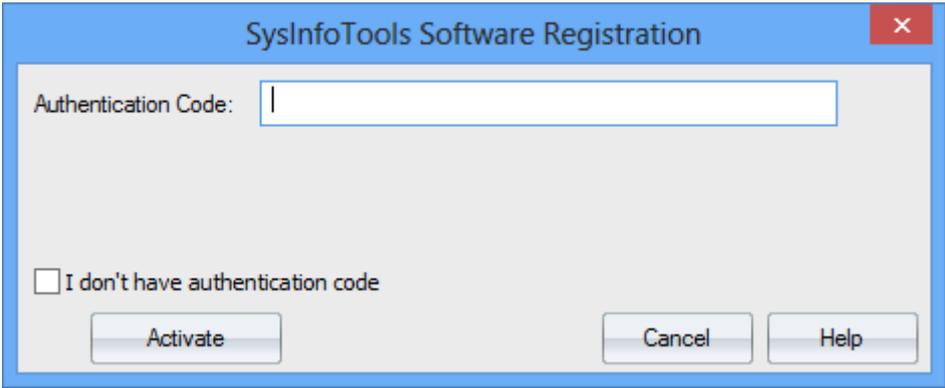

[www.sysinfotools.com/buynow/merge-nsf-files.html](http://www.sysinfotools.com/buynow/merge-nsf-files.html)

Once the payment is done, you will immediately receive full version of the software tool along with the activation instructions via Thanks page.

### 4.2 How to Activate

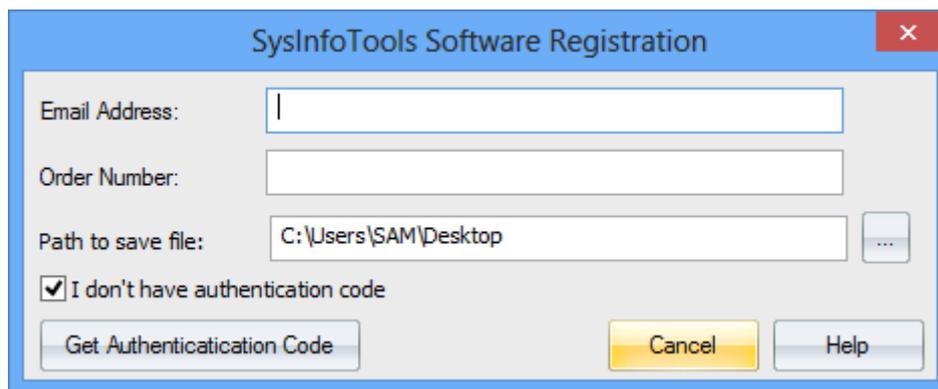

As you purchase the software, an Order Number is generated and provided to you. This order number has to be entered in the Registration window of the full version of NSF Merge tool.

- Open **SysInfoTools NSF Merge** software in your system, software registration dialog will pop-up on your screen to enter software authentication key.

The image shows a screenshot of the 'SysInfoTools Software Registration' dialog box. The dialog has a blue title bar with the text 'SysInfoTools Software Registration' and a red close button. Inside the dialog, there is a text input field labeled 'Authentication Code:' with a cursor. Below the input field is a checkbox labeled 'I don't have authentication code'. At the bottom, there are three buttons: 'Activate', 'Cancel', and 'Help'.

- Click the "**I don't have Authentication Code**" check box, following fields will be displayed in the registration dialog:

**Email Address:** In this field, you need to enter your email address, which you have used to register **NSF Merge** software.

**Order Number:** In this field, you need to enter the Order Number which has been provided to you at the time of purchasing the software.

**Path to save the file:** Select the path where you want to save the .info file which is generated after clicking on "**Get Authentication Code**", by default .info file will saved on desktop of your system.

Send this **.info file** generated by the software at [sales@sysinfotools.com](mailto:sales@sysinfotools.com), after getting .info file sales department will send you software activation key within a couple of minutes.

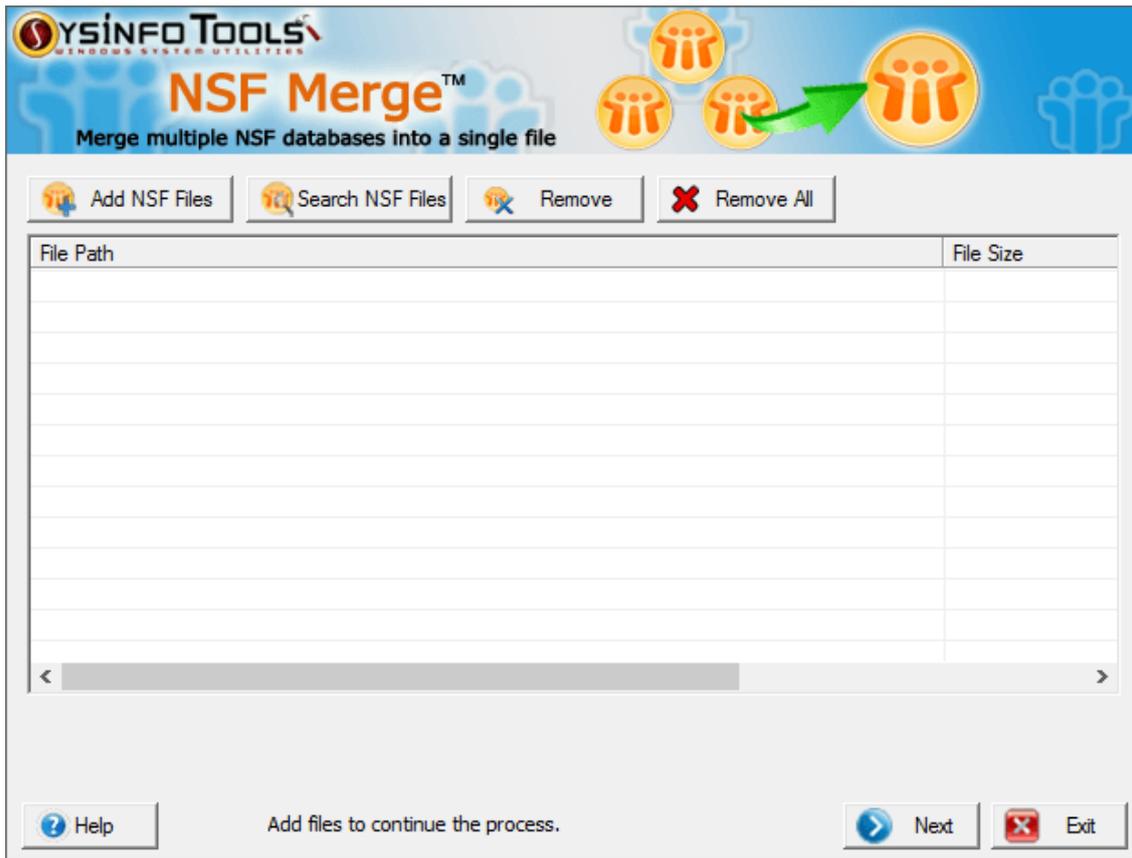

For any software related queries email at: [support@sysinfotools.com](mailto:support@sysinfotools.com)

In particular, there is no warranty for the quality of data recovered. You acknowledge that good data processing procedure dictates that any program, including SysInfoTools NSF Merge, must be thoroughly tested with non-critical data before there is any reliance on it, and you hereby assume the entire risk of all use of the copies of SysInfoTools NSF Merge covered by this License. This disclaimer of warranty constitutes an essential part of this License.

In addition, in no event does SysInfoTools authorize you or anyone else to use SysInfoTools NSF Merge in applications or systems where SysInfoTools NSF Merge failure to perform can reasonably be expected to result in a significant physical injury, or in loss of life. Any such use is entirely at your own risk, and you agree to hold SysInfoTools harmless from all claims or losses relating to such unauthorized use. You agree to hold SysInfoTools Data Recovery harmless from any and all claims or losses relating to such unauthorized use.

## 8. Technical Support

We provide 24/7 online support to solve customer's queries. We have highly skilled and expert support team, who makes use of modernized communication devices, thereby achieving maximum efficiency and an exceptional response time.

## 9. About SysInfoTools

Since several years, SysInfoTools Software has evolved as one of the trusted names in the field of Data Recovery of the different types of files. The main aim of our organization is to provide the best possible solution to our customers so that our customers can recover their

data and relief them from the frustration of data loss. We aim at providing values to our customers and try to satisfy them in every possible way. Customer satisfaction is prime reward for our organization.

SysInfoTools Software provides a wide range of software for different types of corrupt files recovery and repair for corrupt zip files, MS BKF files, Open Office files (Base files, Impress files, Draw files, Calc files, Math files and Writer files), MS Office 2007 files (MS Word files, MS PowerPoint files and MS Excel files). SysInfoTools Software also provides software for corrupt PST files of MS Outlook and DBX files of Outlook Express. In addition, we have more recovery software which are available for crashed hard disk recovery and repair like software for FAT recovery and NTFS recovery. In future, we are going to expand our operations to offer more software for different types of corrupt files, Database, Email migration, Desktop utilities, Network management and many more which will help our customers to recover their valuable data.

The hard drives data recovery software provided by our organization ensures safe and accurate data recovery from the hard drive. It does not modify the existing content of the hard drive and make the fresh copy of the recovered data. Hard drives data recovery software are useful in situation when there is an accidental deletion of files, which are deleted due to virus attacks, disk formatting and software malfunctioning.

You can buy our products directly from SysInfoTools website. We provide software both by online mode and via shipment. The shipment is made within the committed time frame and at reasonable rates. We provide 24x7 customer support, our dedicated support team assists our customer by providing them information before and after the purchase of our product. We also provide the live working videos and free demo of our products at our SysInfoTools site so that the customer can see and analyze the software before purchasing it.
